The delivery of the French mail was begun at 8.10 yesterday morning.

The number of visitors to the City Hall Museum for the week ending 1st May, 1886, was 173 Europeans and 1818 Chinese.

M. Durus, the well known Tonginese explorer, is about to return to the Far East, in order to travel from Tonquin up to Yunnan for commercial purposes.

H. M.'s gunboat *Zephyr*, Lieutenant Commander Hope, arrived at Singapore on the 22nd ultimo from Hongkong, and will be stationed there.

The French gunboat *Scorpion* arrived at Singapore on the 22nd ultimo from Colombo, and was to leave for Saigon after sailing.

According to latest dates from home, the British troopship *Tanar*, Captain J. B. Warren, was under orders to be ready at Portsmouth in three weeks to take naval and military drafts to Hongkong, and to take home invalids.

Mr Gordon Bennett, of the *New York Herald*, was at Aden with his yacht when the S.S. *Khetive* left that port, and it was believed that his intention was to come on to Bombay and Colombo prior to voyaging to China and Japan.

L'Echo de Shanghai of the 27th ultimo says that a Treaty relating to the Tonquin frontier was signed on the 25th ultimo by the French and Chinese plenipotentiaries at Pien-tien. M. Cogordan, the French Minister, would leave for Seoul a few days afterwards, on board the cruiser *Primauguet*.

We regret to learn from the *Independence* of the death of Dr. Magalhães, who left Macao for home a few months since to recruit his health. The deceased doctor, besides being a luminary amongst those who practise the healing art, was very popular wherever he went, and one of his prominent characteristics was that he befriended the poor.

This forenoon the floor of a new house in course of construction in Bridges Street, off Hollywood Road, fell down under a weight of bricks, burying four women and two men. Happily the unfortunate workers were rescued alive, although one of the women was found to be very severely hurt. They were all taken to the Government Civil Hospital.

The P. & O. Company, it is said, are likely to tender for the mail steamer service between Japan and British Columbia in connection with the Canadian Pacific Railway. This would extend the chain of the P. & O. line and enable them to make connection between America and their Indian and China lines. There may be a good deal in this, seeing that the home authorities are already dwelling on the value of the Canadian railway as an alternative means of reaching India. — *Ceylon Observer*.

J. J. Hudson, master of the *Wandering Minstrel*, was fined \$1, with \$1.50 of compensation, at the Police Court this morning for assaulting an Indian watchman who had interfered between the Captain and some boat-people. The Captain had gone in search of a sampan, but, according to the statement of complainant, being rather the worse of liquor, the boat-people were not anxious to have him as a fare. As a disturbance was likely to arise the Indian watchman at Jardine's Wharf intervened and got for his trouble a blow on the chest, his clothes torn, and his arm bitten. According to the watchman's story the Captain subsequently threatened him with reprisals if he took out a summons against him.

Three Chinamen, depositing themselves watchmen and members of a protective society, were charged before Mr Mitchell-Kenney this forenoon with stealing various articles of clothing. They were observed by Constable Patterson making off in a junk with the clothing, and when they were to be pursued they placed the clothes overboard. They being, if the statements of the leader of the three may be believed, to a club in Tang San West street which is supported by the boat-people, and whose function it is to look after the anchors and oars belonging to the boats. The three, however, were unable to give any account of how they came by the clothing, and were fined the first \$20 with option of three months' imprisonment, and the other two \$10 with the option of six weeks' imprisonment.

We have had a pleasure in calling attention to the advertisement announcing that a complimentary farewell benefit will be given next Saturday evening to Mr Charles Tyrrell, the extremely popular comedian of the Mascotte Opera Company. "Rob Roy" has been chosen as the piece for performance, and every effort is to be made to produce this stirring lyric drama with every completeness. Though the cast is a large one, Mr Tyrrell's wonderful influence has gained willing volunteers, and there are all working for him with the same hearty good will with which he has acted for others. Mr Tyrrell himself will appear as "Baile Nicol Tyrrell, of whom he will no doubt give an adequately humorous representation. During the evening, some of the sweetest Scottish ballads and songs will be sung, and this, with the abundance of kills which are sure to be a feature of the performance, ought to attract at least all the boatmen in the place.

Mr J. D. Todd writes from King William's Straits, March 23rd: "Your obituary column in the *Times* of this day is probably the most extraordinary one ever published in any newspaper, the number of deaths advertised being 81, of which number 44 represent a total of 3,433 years, or an average of 78 years each." — *Weekly Times*, March 20th.

LATEST advices from Burmah report a marked revival of trade in Bhamo and a better feeling among the different races. The annual Bhamo Fair, which had not been held for three years, has been re-established, and was attended by many Shans, Kachens and Chinese. A large caravan of Shans had arrived, and was taking salt. A Chinese caravan of nearly 500 animals had also crossed the hills, and although the traders brought nothing from China, they were loading back cottons and other commodities.

Says the *Ceylon Observer* of the 16th ult.: "We are glad to learn that Captain Bayley on the *India* is getting along very well indeed quite beyond his expectations. He has all the indigo up now with the exception of about 80 chests, and he expects to get at in a day or two. He has saved to date 680 indigo chests, about 20,000 hides in bulk, and 40 or 50 chests of tea and a number of sundries, and hopes to have all worth saving out of the wreck in about a month."

The *Ceylon Observer* mentions that the Hon. Lionel Tonnayon was on board the P. & O. steamer *Chusan* which arrived at Colombo on the 11th ult. from Calcutta, lying in a very dangerous state, indeed his recovery is regarded as hopeless. Mr Tonnayon is occupying the doctor's cabin where he receives unremitting attention. Possibly the Post Laureate may journey out to Ceylon to meet him as the only chance of seeing him alive again. The son is a tall handsome man of about 30, and it is very hard that he should be struck down in the prime of life.

It appears (says the *Borneo Herald*) that the Chinese Sakeb Land Farming Company have determined not to plant more tobacco on their Suan Lanbar estate at present, but to await the verdict of the European market on the four hundred and thirty pieces which will be shipped in a few weeks. It is hoped, however, that the Laird of Suan Lanbar will be able to get up to us that the Company will in the interim embark in the Billian timber trade, there being abundance of that wood on their estate, both felled and unfelled. The estate has three hundred acres cleared, but much of this is becoming grass-grown. Twenty five acres are being kept properly cleared, and eleven thousand tobacco trees have already been planted. With three hundred acres of cleared land of the finest quality in Sandakan Bay, with all necessary buildings in readiness and all the heavy work of clearing and burning completed, there could not be a better or more promising beginning of a Coffee, Pepper or Gambier Plantation.

SAYS the *Borneo Herald* of the 1st April: "The Italian *Arque Eritritia* Co., 544 tons, built out of the harbour against a strong head wind on the 6th ultimo, bound for Melbourne, with Mr. Thomas as passenger and with a cargo of timber belonging to Messrs. A. L. Johnston of Singapore and shipped by Mr. Abrahamson of this port. On the following morning she was found to be in difficulties on a sand spit in the entrance of the harbour, the wind blowing hard and raising some little sea. The s.s. *Banca* at once proceeded to her assistance and endeavored to tow her off the spit, but without success. The following day she made another attempt which almost succeeded, but, having a valuable cargo on board she could not afford further delay and proceeded on her voyage to Singapore. On the morning of the 11th, Captain Ross of the s.s. *Paknam* succeeded in towing the *Eritritia* Co. triumphantly into harbour, pocketing \$2,000 and receiving the hearty congratulations of his friends here. The barque is said to be making no water, but her bows are injured and the crew refuse to proceed to sea. The *Nomine* day, which is fully insured, was jettisoned. The ship is said to be two-thirds insured. The Captain proceeded to Singapore in the s.s. *Paknam* to consult with the Italian Consul and to communicate with his insurers. There is no difficulty in entering or leaving Sandakan Harbour, and the Captain excuses himself by saying he was caught by a sudden squall while towing. He refused Captain Ross's offer to tow his vessel to Singapore."

HONGKONG RIFLE ASSOCIATION. PRIZE MEETING.

The first prize meeting of the Hongkong Rifle Association was concluded on Saturday evening. The results of the shooting were published that evening, but were unable on account of the late hour at which the competitions finished to give the complete scores, which will be found below. The meeting has been a very successful one, not only in bringing forward many good shots, but in attracting the public to witness the contests. The accessory events in the way of "running deer" and pool targets were very popular, and of course afforded the most amusement to the spectators. On Saturday a large crowd of ladies and gentlemen were attracted to the mimic sport, and the success or non-success of the sportsmen gave ample scope for merriment. Among the successful marksmen were Major Davies, Colonel Anderson, Mr Francis, Mr A. G. Wise, Mr Macgregor, Inspector Orley, and Lieutenant Lloyd. At the pool targets Inspector Thomson had a run of luck, scoring no less than six bull's eyes, while P. Sergt. Mackay and Capt. Porter had three each.

The great event of the day was the firing for the President's Cup, in which Sergt. Phillips distinguished himself securing the possible score of 35 at 400 yards and making a grand total of 95. The next highest figure of the meeting was reached in the fourth competition, which was fired off last Monday. Col. Foster then made 94, which, considering that the distances in this case were 400, 500 and 600 yards while those in the seventh competition were 200, 400 and 600 yards, he considered the better of the two scores. In the seventh competition the military carried everything before them; the first, second and third places being secured by Sergt. of the Regiment. One of the most steady marksmen, however, was Inspector Thomson, who in the four competitions for which he achieved a total of 284 points, out of a possible of 290, only 5 behind Col. Sergt. Lewis, who was the crack shot of the meeting, securing no less than four first prizes, besides range prizes, and a second in the President's competition. Among the other successful competitors have been P. Sergt. Cameron, who gained the first prize in the Carbine

competition, and Lieut. Dew, who had the highest score for the Lady's Cup.

THIRD COMPETITION.—Sweepstakes. Open to all comers. For any Military Rifle. Distances, 400, 500 and 600 yards. Seven shots at each. Prizes the amount subscribed (less 2 per cent. to go to the funds of the Association) divided into four equal parts as follows:—

Rank	Name	Score	Prize
1st	One for the best score at 400 yards.	2nd	One for the best aggregate score made at the three distances. Winners excluded from taking more than one range prize. Entrance fee \$5.00. All the competitors fired with the Martini Henri Rifle.
3rd	One for the best aggregate score made at the three distances. Winners excluded from taking more than one range prize. Entrance fee \$5.00. All the competitors fired with the Martini Henri Rifle.	4th	One for the best aggregate score made at the three distances. Winners excluded from taking more than one range prize. Entrance fee \$5.00. All the competitors fired with the Martini Henri Rifle.

SEVENTH COMPETITION.—President's Cup. For Martini Henri Rifles or Carbines. Distances 200, 400 and 500 yards. Seven shots at each. Prize Cup presented by the Hon. T. Jackson for the highest aggregate score. Entrance fee \$1.00. R. means Martini Henri Rifle, and C. Carbine.

Rank	Name	Score	Prize
1st	Sergt. Phillips	95	1st Prize
2nd	Col. Foster	94	2nd Prize
3rd	Col. Anderson	93	3rd Prize
4th	Col. Lewis	92	4th Prize

9th	Col. Orley	12	9th Prize
10th	Col. Thomson	11	10th Prize

'OUR BOYS' AT THE THEATRE ROYAL.

On Saturday, a complimentary farewell benefit was given to Miss Eva Davenport, the popular prima donna of the late Mascotte Opera Company, the piece selected for representation being "Our Boys." It is needless for us to again enumerate Miss Davenport's claims to public patronage, but this much we may say, that no lady actress who has visited Hongkong in recent years has enjoyed such a large measure of popularity, and the crowded house of Saturday night gave the most convincing proof of the truth of our assertion. Upstairs and downstairs not a seat was left unoccupied, and a few persons were compelled to stand throughout the entire performance. The performance itself, though far from faultless, was sufficiently well staged and acted, to keep the audience in good humour most of the time, and though at the conclusion serious disappointment was felt with the manner in which some of the characters had been presented, the prevailing sentiment was that a very enjoyable evening had been spent. As at all critical, however, most of the imperfections left something to be desired, and one was so unutterably feeble that it acted as a drag on the whole play. This last defect was sincerely regrettable, as the character in the play but it is one of the most striking features of the evening, and perhaps he better to take the characters as they appear on the programme. Sir Geoffrey Champneys, taken by Mr J. Hazeland, was very creditably impersonated by a gentleman who for his years and brief experience acted wonderfully well. The contrast between the handsome and the vulgar buttermilk was clearly defined, and but for a lifelessness imparted to the character by an excess of stiffness in manner and deliberateness in speech, the representation might even have been admirable. Mr Hazeland's make-up was excellent. Zerkys Midland, the successful buttermilk, was represented by Mr Tyrrell with great truthfulness and effect. At times his manner was a trifle too loud even for a buttermilk, but this defect was not so pronounced as to detract from the excellence of the impersonation as a whole. Mr Tyrrell extracted all the fun there is in the part. Captain Bunsbury in *Tommy* (represented, perhaps, the most difficult subject in the cast to impersonate, and his un-doubted success is therefore all the more creditable. His delineation of the part was really capital, and would have put that of many professionals to the blush. If anything, his conception of the character was a trifle more make rather more rapid than the author intended him to be; it nevertheless came sufficiently near the truth to bring out a very vivid picture of the character. Allice with the ladies and the men Captain Bunsbury was excellent, and hardly a point was missed, while all through he was most consistent with the gown was in part stored.
